

**ALBIZU**  
**UNIVERSITY**  
MIAMI CAMPUS

**“Love reaches beyond  
knowledge.”**

**–Dr. Carlos Albizu Miranda**

## **A STRONG HERITAGE**

Dr. Carlos Albizu established the university in 1966 with a theory of education premised on his philosophy that “knowledge that is based solely on logic and reason may become dehumanizing and is not at the service of humanity. Education that is guided by love emphasizes social welfare more than it does individual competition”. Founded in 1966, Albizu University (AU) is the first professional school of psychology established in the United States and the Caribbean.

## **EXCELLENCE**

The university is accredited by the Middle States Commission on Higher Education; the American Psychological Association accredits its clinical psychology programs; and the Master of Science program in Speech-Language Pathology is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association (ASHA).

## **DIVERSITY**

At Albizu University, we embrace and respect diversity. Our programs are designed for students from all cultural and ethnic backgrounds, offering rich exposure to culturally diverse populations through academic training and applied experiences. Our university is ranked by the National Science Foundation (NSF) among the top five universities in the U.S. for awarding doctoral degrees to Hispanic students.

# OUR VALUES

---

## Vision

To be an international leader in academic innovation, research, and community service, promoting diversity to generate a transformative social impact.

## Mission

Albizu University educates professionals in behavioral sciences, speech pathology and other disciplines, committed to research, to improve quality of life, and to serve diverse communities.

---

AMERICAN  
PSYCHOLOGICAL  
ASSOCIATION

## Speech and Language Pathology Program

---

AMERICAN  
SPEECH-LANGUAGE-  
HEARING  
ASSOCIATION

# GOODMAN PSYCHOLOGICAL SERVICES CENTER

---

## Diverse Services

The Goodman Center at Albizu University's Miami Campus is the training and outpatient facility for mental health and speech and language services. Graduate students offer services under the supervision of licensed professionals, available in both English and Spanish. Operating on a sliding fee scale, the Goodman Center aims to serve low-income communities, with an estimated 60% of our clients being of limited economic means.

Over the past 44 years, the Goodman Center has served over 15,000 individuals and families in the Miami-Dade area.

# PSYCHOLOGY SERVICES

---

## Individual Therapy

Individualized therapy sessions for children, adolescents, and adults. We help manage any situation that causes emotional distress to improve quality of life.

## Group Therapy

The aim is to expand individuals' support networks to help them address their problems collectively.

## Couples Therapy

We address emotional issues and conflicts that are affecting the couple.

## Family Therapy

The goal is to address the needs of each family member and work together to find solutions that reduce tensions and improve interactions with one another.

## Evaluations

We offer psychometric, psychoeducational, psychological, and neurological assessments. Additionally, evaluations for the diagnosis of autism in children and adults are conducted.

# SPEECH AND LANGUAGE–AUDIOLOGY SERVICES

---

## Screening

- Pediatric Speech, Language, Hearing, and Dysphagia/Feeding
- Pediatric Development
- Adult Speech, Language, Hearing, and Dysphagia
